Large and small web ads are purchased on a quarterly basis. You have the option to run one ad for the three-month period, or purchase up to three additional ads at a lower cost (see pricing & sizes.) If you purchase four ads they will rotate through the spot with no other advertisers in that space. If you purchase one, two, or three ads there may be other advertisers rotating through that same space. The ad changes every time a reader opens the page.

- All ads in a space must be the same size.
- All ads must be web page ready and in JPEG format.
- All ads are quarterly and will be pro-rated accordingly.
- You can have your ad changed within the quarter for a \$25 maintenance fee.
